NEW WORLD CHILD DEVELOPMENT CENTER

MARCH - APRIL 2012

* Review March :

The visit of Fire Department: The children were really excited about the Fire Truck and three Fire Officers. Some children even wondered (before they came) "Are they real?". Special thanks to the three firemen whom gave our children a meaningful educational presentation. They taught children about the safety. Children asked questions and were amazed to see the real fire truck.

Science: Children in Tiger room experimented two science projects related to Fire and Air. They also planted the Bean Sprouts.
